Pepco is ...

ELECTRICAL DISTRIBUTION UNLEASHED

Your one complete source ...
... with tens of thousands of products from over 200 of the industry's top manufacturers.

Product Rationalization | Inventory Management | Process Efficiencies

+ Comprehensive Electrical Distribution

Developing and implementing cost effective, value-added electrical solutions with products and services for any type of new or maintenance electrical requirement for industrial, residential, commercial, institutional and utility projects.

+ Complete Utility/High Voltage Materials & Supplies Packager

Expert staff combines product from all of our divisions to meet the needs of any substation, transmission or distribution project, while also furnishing customers with in-house electrical engineers capable of assisting with engineering procurement and design.

Our customers have access to an Emergency Hotline should they need materials and trouble-shooting solutions during non-business hours.

+ Solution-Oriented Data/Telecom Service

Offering a diverse selection of communication products, including a full line of premise infrastructure supplies, allowing our team of professionals to coordinate voice/data/video systems for any residential, commercial, industrial, institutional and utility application.

+ Experienced Industrial/Automation Technical Support

Pepco, a national leader in the automation industry, stocks a full range of industrial and automation products and accessories, while providing in-house automation professionals to assist customers with virtually any application – in the field or with specialized training.

+ Illuminating Lighting Customers

Lighting division illuminates our customer base with a comprehensive array of products and services for all their needs, including fixtures for new construction to retrofitting existing lighting systems and fluorescent to incandescent lighting.

+ Tool & Safety Program Implementation

Team of experts helps ensure the safety of our large public utility, contractor and industrial customers – and their clients – through our focused tool and safety programs that implement the very latest OSHA criteria and industry compliance standards.
